

April news

This brief newsletter is about a visit made by Kinamba students to a secondary boarding school where several of our students are at the moment. One of our students is Head Girl there.

The school is a kind and caring place, very willing to accommodate differences and do their best to help individuals.

Epiphany wrote this short report about the visit and below are a few photographs, unfortunately there are no pictures of the dance and music events because they took place after nightfall and photographs were apparently impossible

On Monday 25th March 2024 KCP went to visit GITISI school where we had Rugby Friendship games. We had two teams girls and boys. The girls lost and the boys won, they were amazing games and the students from Gitisi were thinking that we are kids and we cannot win, but they saw how we played in an intelligent way, especially Munyonzi (Fiston)

We also had traditional Dance. KCP students were so excited to visit another school, especially in secondary school. They met other teams and saw their dance. For ours they have shown them different performance and it was very nice, each team showed us their talents and it was great to see primary dance and secondary dance, but we did not have photos because it was too dark for pictures.

Music: In this session Leontine's group performed different songs in Kinyarwanda and English. We have also the drumming party where they accompanied the songs they were singing.

Generally we had a target to show them how to drum and we called our secondary students from KCP to drum as they have studied in KCP when they were in Primary.

The GITISI students did not want to finish this visit, the singers and drummers are so talented compared to the Gitisi singers and we all enjoyed our visit.

We are fortunate in the talented young people who are working with our students and giving them important experiences not readily accessible to others.
